

Technical Parameters AA-DS12	
Screen	15 inch infrared multitouch screen
Resolution	1280*960, 1280*1024
Contrast	1900/2/10 16:01:00
OS	Win7 system (win8, win10 optional)
Color/ brightness	16.2M/250cd/m2
Mainboard	Industrial motherboard
CPU	I3 Dual core four thread 2.4HZ
Internal Storage	4GB
Hard Disk	64Gsolid state disk / 4T
Collect Interface	12*USB ports, 5V 1.2A
Internet Interface	Realtek RTL8111F Gigabit PCI-E card
Working Temperature	-10℃--55℃
Storage Temperature	-20℃--60℃
Input Voltage	110-220VAC
Weight	41KG
Size	41*58*86cm

Software Spec.	
Compatibility	The body cameras conforming to the standards of the “Single Police Law Enforcement Audio and Video Recording System” of the Ministry of Public Security can be accessed by the management personnel after registration.
Files Uploading	Priority upload function, you can assign any police body cameras as priority, this one is uploaded first, other body cameras are in the waiting state
High Speed Data Uploading	One piece or more pieces to upload data could be user-defined
Auto Uploading	Once connected to docking station, the files (video files, audio files, photos, log, gps files) in the body cameras could be uploading automatically
Auto Empty	When data uploading finished, the files in the body cameras will be emptied
Managment	Data retrieval can be performed according to one or more conditions such as police officer number, name, equipment number, collection time, and shooting time. Copy, cut, delete or upload to single or multiple data.
Auto Charging	Connected to docking station, files uploading and charging automatically
Battery	Docking station with battery, even no power, it still will work.
Working Time	7*24 non-stop run
