8	Top humanity "Power", "work" indicator, for law enforcement use to bring more convenience
9	Laser positioning "designed to ensure that video picture is not shifted, clear and effective enforcement evidence
10	One- key player can quickly check the recorded audio and video data admission
11	Video extension records, pre-recorded to ensure that it won't miss any law enforcement picture
12	With automatic or manual infrared night vision capabilities, built two high-power infrared light, when night vision function activated, you can see from the prototype of the character's facial features 8m, 15m can see from the prototype at the body contour.
13	Motion detecting function
14	Car start recording function
15	One- key recording function, in the off state, for law enforcement emergency situation, can be a key to enter the video, make sure not to miss any enforcement data
16	Double block replaceable battery design, a single battery can support continuous recording time five hours and standby time of 120 hours, replace the battery in the case, the continuous recording time 10-15 hours, 24 hours standby
17	Built-in backup battery, remove the battery in the video, taking pictures, recording, still ensure data integrity
18	The use of advanced encryption technology, well-equipped law enforcement instrument backstage PC management software, synchronous timing, one-click upload data to ensure the security and management of data classification
19	HDMI HD output interface,law enforcement data for the latter view,evidence to provide a strong guarantee
20	Support external 3G module, remote control and wireless cameras optional features
21	It has unique AP hot spot technique, so the mobile phone(Android, IOS ) could connect with the device through Wi-Fi for watching shoot pictures on site.

## Specifications

LCD Screen	2 inch TFT-LCD High-Resolution Color Display
operating system	Windows 98/2000/ME/XP/Windows 7/Windows8
Recording Angle	Wide Angle 140 degrees
photo format	JPEG
IR Night Vision	Manual/Auto switch, up to 15 Meters with Visible Face Detection
Video Format	H.264 MP4
Video Frame rate	30FPS D1 60FPS
White Balance	Support
Camera Resolution	4608*3456
Video Resolution	2560*1080 304*1296 1920*1080 1440*1080 1280*720 848*480
Storage Capacity	32GB/64G optional
Dimension	85*61*31mm
Weight	160g
Battery Capacity	3900 mAh ( Replaceable Li-battery, 1950mAh/pcs )
Standby Time	24 hours
Working Time	8-10 hours
Secondary Light Source	Infrared light, the highlighting LED flash light, laser positioning
Voice Recording	Support
Working Temperature	-40--60℃
Working Relative Humidity	40%—80%
Storage Temperature	-20--55℃
Waterproof Level	IP67
Drop Resistance	2.5 meters
Log	Support

<b>Motion Detection</b>	Image objects move, video recording automatically
Pre and Post-Event Recording	Up to 30 seconds (depends on video resolution)
GPS	<b>Built-in GPS</b> ( use the GPS Player, can realize trajectory playback)---- <b>Optional</b>
AVIN/AVOUT	Support
In-vehicle Mode	Motor-start, video recording began. Could work with the car charger and the dash mount, as the automobile data recorder
<b>Charging Cradle</b>	Support
Audio Transmitters Function (PTT)	Connect to Different Types of Radios

### Standard Accessories

Charge Station

Spare Battery

Car Charger

AC Charger

Shoulder Holder

USB Cable
